

How Creating a Digital Workforce Delivers Success

Get better control and increase productivity of your front office and field workers by creating a connected workforce

Provide gangs with data at their fingertips and act on the latest real-time information that gangs capture at source with mobile technology and a powerful job management platform

- 100%** Saved on printing costs by switching to electronic job packs
- 50%** Saved on manual noticing costs submitting electronically
- 100%** Saved on rekeying paper timesheets by submitting

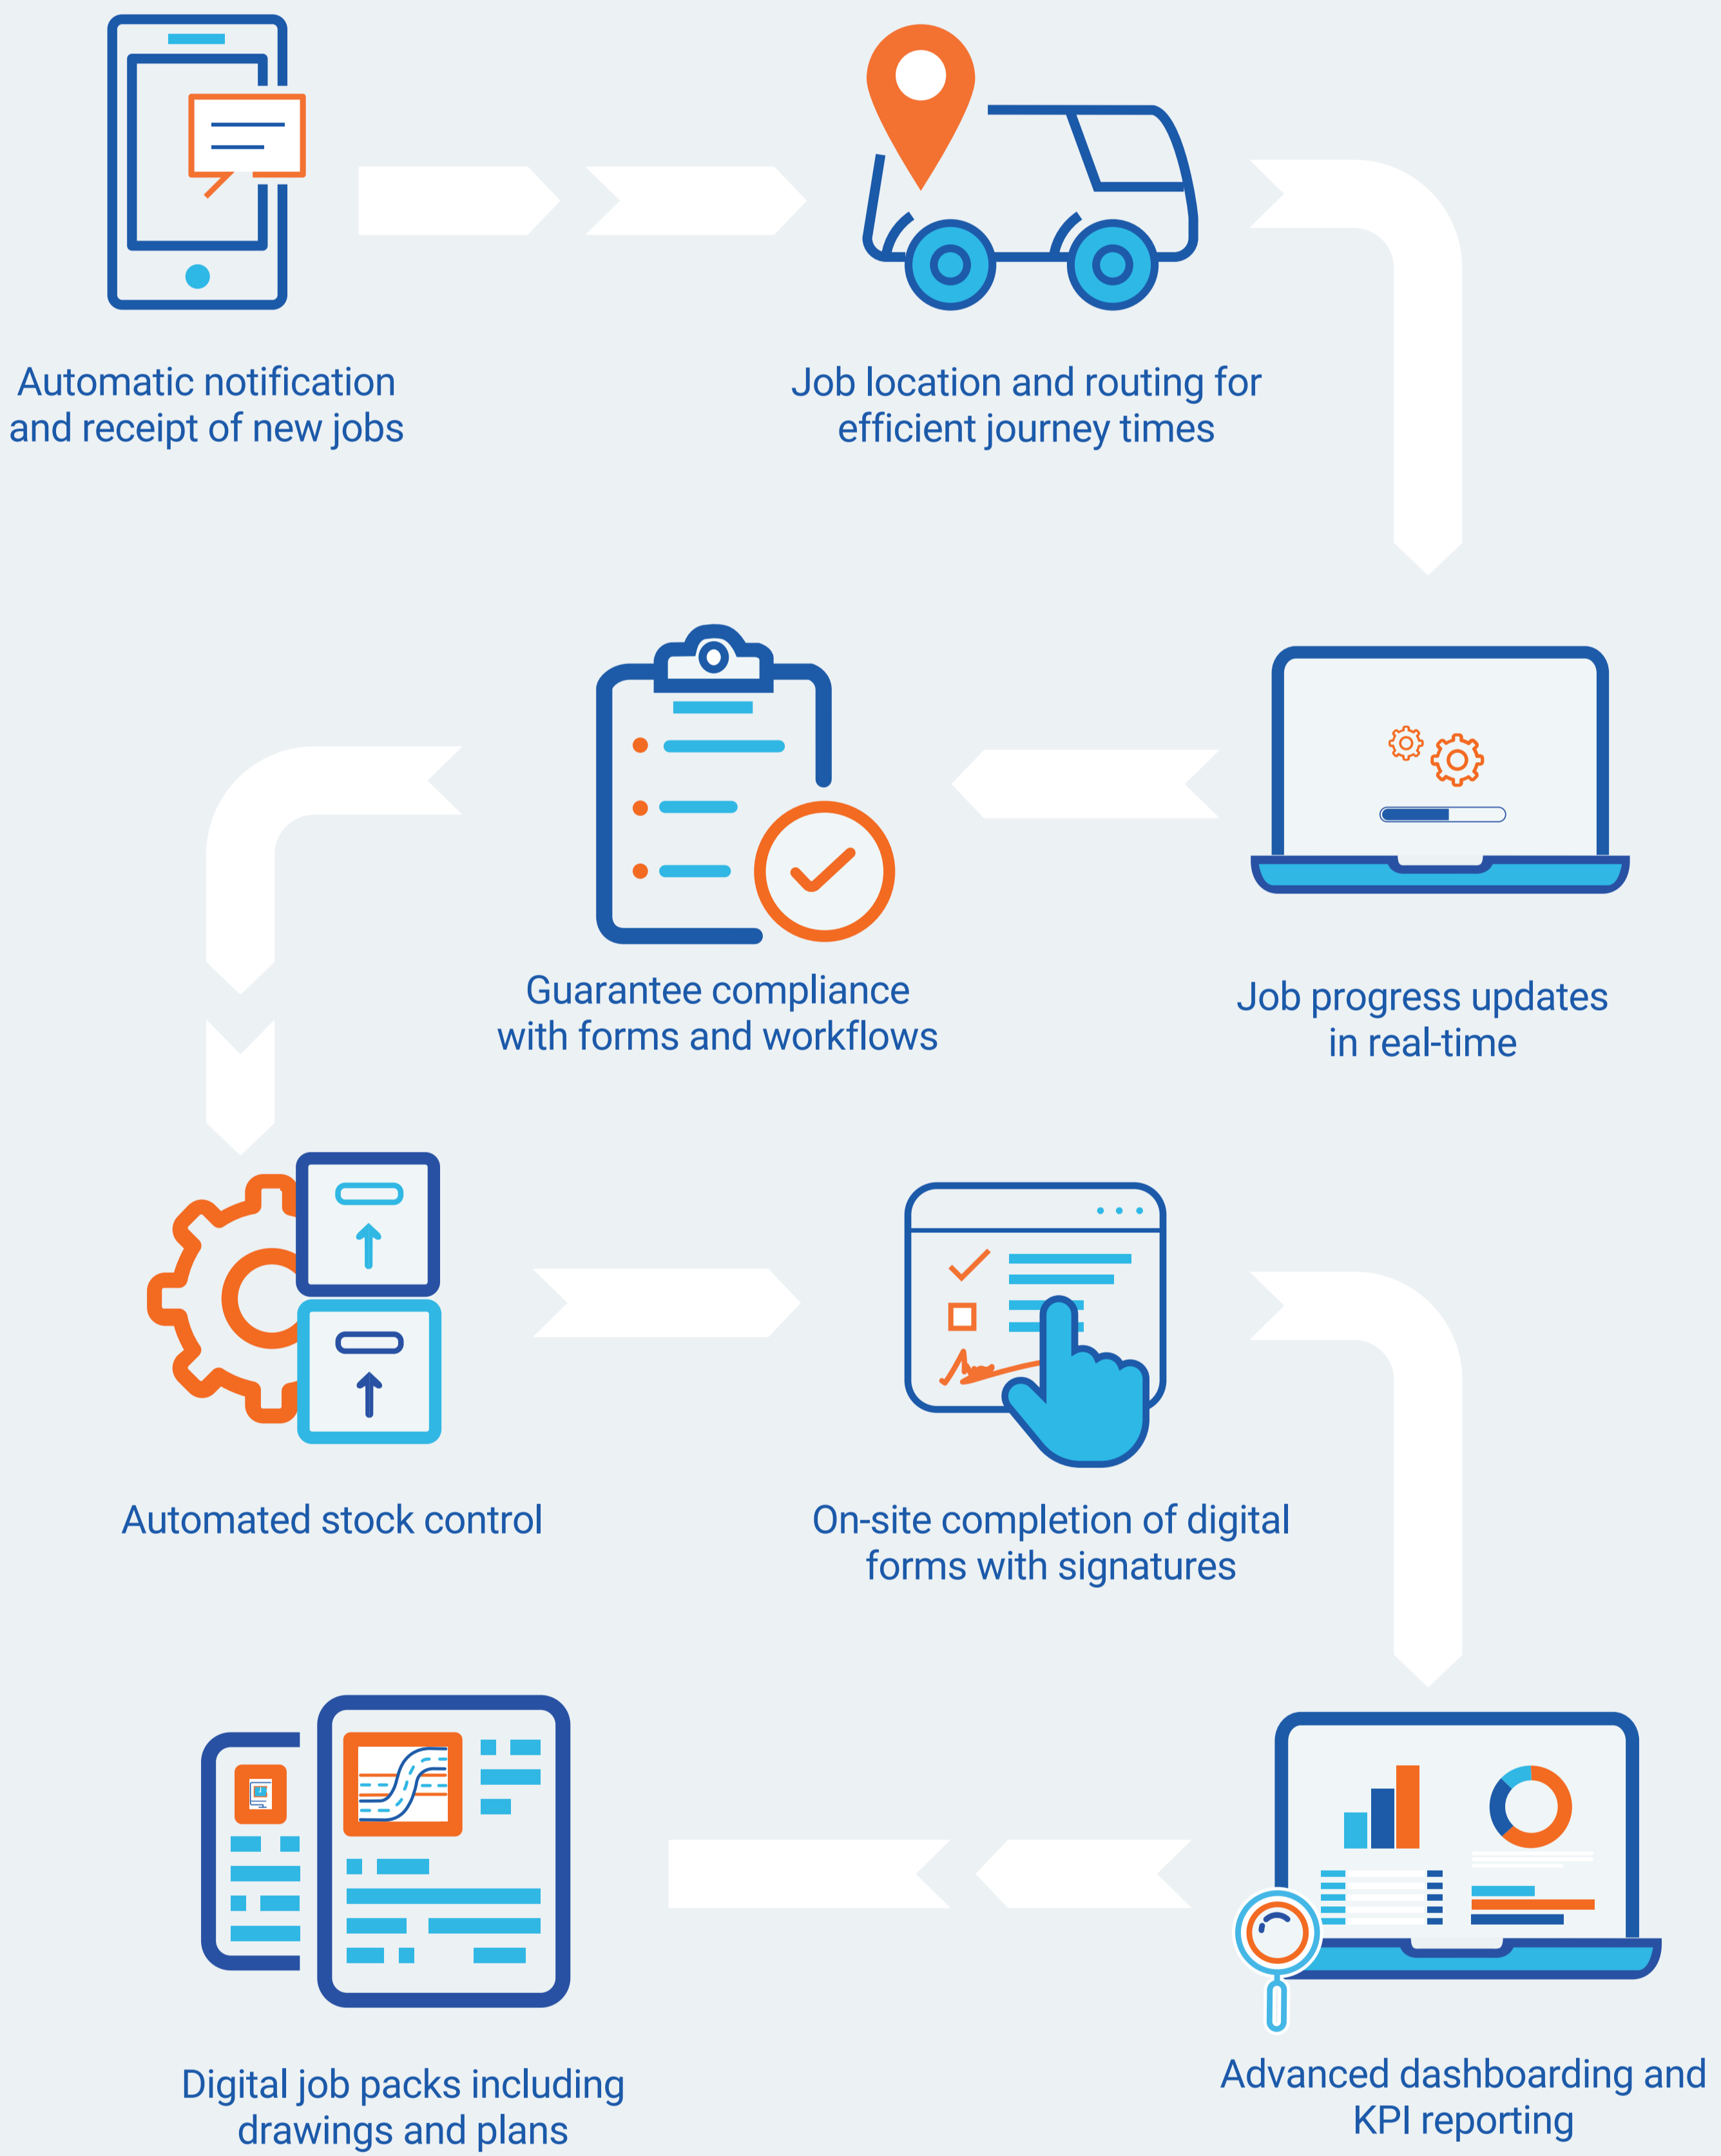

DRASTICALLY IMPROVE YOUR RESULTS

Mobile technology gives your workforce the digital tools to get more jobs done every day. It gives you transparency of operational performance and delivers real-time information that helps you improve on all fronts

 Reduce overhead costs	 Exceed contracts KPIs	 Get more jobs done
 Real-time operational transparency	 Increased workforce efficiency	 Reduce project risk

THE DIGITAL WORKFORCE – EFFICIENT, FAST AND ACCURATE

Access real-time information to improve scheduling, tighten job management, achieve accurate reporting, and much more

DIGITAL FORMS AND TIMESHEETS

Modernise traditional timesheet recording and overcome the associated frustrations of delayed invoicing and lost paperwork

 Automatic timesheet completion as jobs are progressed	 Monitor actual hours vs budgeted hours
 Manage labour costs by guaranteeing timesheets are accurate	 Eliminate paperwork and manual processes
 Store event sequences and access audit histories to support variations	 Upload timesheet data simply into any payroll system
 Remove human error from manual processes and stop rekeying data	

Learn how you can use technology to transform productivity on your maintenance projects.
